EXPERIENCE

2016 **The Palm Beach Post**, data reporting intern

During my six months as a data intern with The Post's investigative team, I contributed analysis and graphics to long and short-term projects. We are currently investigating aggressive campaign tactics that may have crossed legal boundaries in a recent election.

2016 **Arizona Center for Investigative Reporting**, data reporting intern

I wrote code that processed thousands of bills to trace model legislation and influence to its source, used government and open-source APIs to automate data-gathering and wrote about sparsely reported lobbyist expenditures.

2013 – 2015 **The Arizona Republic**, reporting intern

I covered community, crime and cold cases for The Arizona Republic, KPNX 12 News and azcentral.com, in addition to collecting and analyzing crime data for stories.

EDUCATION

Arizona State University

Walter Cronkite School of Journalism and Mass Communication
Major: Print Journalism with an emphasis on computer science
Graduation: May 2016

SKILLS

Research Methods

APIs, Python web-scraping, data-munging with Pandas and Numpy

Software Proficiency

Microsoft Excel, Adobe Illustrator, Git

Programming

Python, Javascript, SQL, HTML, CSS, UNIX, Java

Mapping

QGIS, Python spatial analytics and mapping
